

COLOUR VISION FLAG TEST

Your Doctor has indicated that you have a colour vision problem. You must successfully complete a "Flag Identification" test before your license can be issued. Take this form to an Official at your Club (Race Director, Steward or Starter) for the flag test.

This form will serve as your license for one (1) race event only, if you successfully pass this flag test. When completed, this form must be returned to the ASN Canada FIA-NKC offices so that we may complete the process of the license application.

Dear Official,

The bearer of this letter needs to successfully complete a flag test. In conjunction with the Starter, Race Director and/or Steward, please administer a flag identification test at a distance of at least two-hundred (200) to three-hundred (300) feet and a minimum of fifteen (15) to twenty (20) flags shown and properly identified. A minimum of three (3) yellow flags, three (3) red flags, three (3) green flags and three (3) black flags must be properly identified in order to pass.

Type of License: Four Cycle Junior Four Cycle Senior
 Two Cycle Junior Two Cycle Senior

All requirements are in order, therefore if _____
passes the flag test, he/she may race.

The flag test was not successfully completed, therefore _____
May not race at this event.

DATE: _____

(Club Official)

Club Official: Please complete the bottom portion of this form and send the entire form to the ASN Canada FIA offices at the address below.
